

## Feel like your students are still playing catch-up? Want to get ahead of the next year's curriculum?

As part of our ongoing partnership with Capistrano Unified School District, Saddleback College Community Education will once again offer our College For Kids summer academics program, **The EDGE**, to closely align and support the Core Curriculum taught during the school year at middle and high schools.

Give your students **The EDGE** to help them develop skills and knowledge transferrable to immediate scholastic accomplishments. Whether your student is looking for acceleration or remediation, **The EDGE** equips students with the essential confidence and skills to achieve their full potential inside the classroom.

### What do I need to know?

1. This is a targeted curriculum developed by CUSD teachers. Unlike the one-size-fits-all programs, these courses are custom designed for immediate success with the CUSD Core Curriculum.
2. The curriculum, designed to be as engaging as it is rigorous, addresses the critical concepts and skills needed for academic success on Day 1 in both math and English
3. Students who participate in **The EDGE** will have significant confidence and, with that, a decreased in anxiety about the academic expectations of the next grade level.

### What will the classes include?

In small, focused classes on the Saddleback College campus, our instructors will empower students through exciting activities, academic rigor, and creative lessons. Instructors will present specifically targeted lessons designed for immediate academic achievement, confidence, and success on a daily basis.

### What is the schedule of classes?

We will have two sessions available for registration. All classes will run for 2 weeks, Monday through Thursday, for 1.5 hours per day. See below for more details:

**Session 2: July 10 – July 20, 2023**

**Session 3: July 24 – August 3, 2023**

<b>Math   10:45 – 12:15 PM</b>	<b>Language Arts   1:00 – 2:30 PM</b>
